Dee Why
2099

Dear Bryan

Thank you for your recently completed work on my garage entrance, this work included:

- widening the entry by removing part of the wall
- Replacement of 2 arch bars in accordance with engineering specifications
- Removal and disposal of garage door along with other waste
- rebuilding of sandstone corner at eastern entrance to garage

You carried out the work promptly for a very fair price and your workmanship was of a high standard. Should I require any sort of brickwork in the future I will most certainly be in contact with you.

Yours sincerely
